Student-to-Student Webinar Series

Cool Tools: Assistive Technologies That Help!

Register today to join us for the third in the series of Learning Ally's Student-to-Student webinars! Students will lead this webinar by sharing their stories and information about their favorite assistive technology tools.

Your child will learn how to use some of these tools in the classroom, and see demonstrations by other students via webcam. There will be time to ask questions and chat with students across the country about their experience with dyslexia and the tools they use.

We have two sessions of this popular webinar scheduled: May 23 and May 26.

Questions? Contact YES@LearningAlly.org

Need Personalized Advice?

In addition to this workshop, our team of parent support specialists are always here for you. Call us to set up a one-on-one parent phone consultation. As always, these are free, so call as many times as you need! Set up the consult by calling **800.635.1403** or members can register online through their [member dashboard](#).

We look forward to speaking with you!
